Conflict Metals Corporate Policy

Effective Date: 2/9/2014

Purpose
To outline Company's practices regarding the sourcing of Conflict Minerals as well as the verification of such practices.

Scope
This Policy applies to all employees of Torrey Hills Technologies, LLC ("THT" or the "Company") and its subsidiaries and affiliates. THT will, as far as it is reasonably practicable, ensure that the Company's activities, and those of its suppliers and subcontractors, will comply with this Policy.

Policy
THT is committed to implementing programs and practices that promote environmental sustainability and social responsibility, while continually improving product quality and reliability. To that end, THT considers it unacceptable that the sourcing of certain "Conflict Metals" eventually incorporated into its products could be contributing to armed conflict. Conflict Metals are defined as: gold (Au), tantalum (Ta), tin (Sn) and tungsten (W) derived from ores which have been mined in the Democratic Republic of the Congo or adjoining countries.

In carrying out this policy, THT will implement programs and practices that, wherever practicable:

- prevent the introduction of Conflict Metals into its products
- verify the sources of gold, tantalum, tin and tungsten used in its products
- audit its suppliers for the continued accuracy of those verifications
- maintain records of verifications for both internal and/or external audit
- assign internal roles and responsibilities and provide appropriate staff training to manage program
- communicate the Company's efforts to stakeholders

All THT managers, employees, partners and suppliers are expected to adhere to the spirit as well as the letter of this Policy.

Implementation
The senior executive responsible for each local operating unit is ultimately responsible for stewardship of the products made there and shall:

- provide appropriate staffing and assign internal roles and responsibilities to manage the Product Stewardship - Conflict Metals Program
- maintain an awareness of and familiarity with regional, national and multi-national (e.g., European Union) statutes, regulations, directives and criteria applicable to the operation
- develop and implement programs and procedures necessary to carry out this Policy, addressing existing and new product lines
- provide training to all affected employees of the requirements of this Policy and the implementation of its programs and procedures. In particular, those personnel who interface with THT's customers (e.g., sales and marketing, product designers, quality assurance staff) should be familiar with all material aspects of this programs
- maintain an adequate, verifiable database, consistent with the products being manufactured at a local operating unit, to facilitate transfer of information to customers and other stakeholders. Provide current information as input to a company wide database of product information, if such is available.

The Company reserves the right to amend this Policy at any time.
## Conflict Minerals Reporting Template (CMRT)

The purpose of this document is to collect sourcing information on tin, tantalum, tungsten and gold used in products.

### Answer the following questions 1 - 7 based on the declaration scope indicated above

1) **Is the conflict metal intentionally added to your product?** (*)

   - **Tantalum** (*): No
   - **Tin** (*): No
   - **Gold** (*): No
   - **Tungsten** (*): Yes

2) **Is the conflict metal necessary to the production of your company’s products and contained in the finished product that your company manufactures or contracts to manufacture?** (*)

   - **Tantalum** (*): No
   - **Tin** (*): No
   - **Gold** (*): No
   - **Tungsten** (*): Yes

3) **Does any of the conflict metal originate from the covered countries?** (*)

   - **Tantalum**: No
   - **Tin**: No
   - **Gold**: No
   - **Tungsten**: No

4) **Does 100 percent of the conflict metal (necessary to the functionality or production of your products) originate from recycled or scrap sources?** (*)

   - **Tantalum**: No
   - **Tin**: No
   - **Gold**: No
   - **Tungsten**: No

5) **Have you received conflict metals data/information for each metal from all relevant suppliers of 3TG?** (*)

   - **Tantalum**: No
   - **Tin**: No
   - **Gold**: No

6) **For each conflict metal, have you identified all of the smelters your company and its suppliers use to supply the products included within the declaration scope indicated above?** (*)

   - **Tantalum**: Yes, 100%
   - **Tin**: Yes
   - **Gold**: Yes
   - **Tungsten**: Yes

7) **Has all applicable smelter information received by your company been reported in this declaration?** (*)

   - **Tantalum**: Yes
   - **Tin**: Yes

### Additional Information

- Mandatory fields are noted with an asterisk (*). The information collected in this template should be updated annually. Any changes within the annual cycle should be provided to your customers.

- The data collection template should be updated annually, and any changes within the annual cycle should be provided to your customers.

- **Register Certificate Number:** 200403110090

- **Register Certificate Address:** 6370 Leash Blvd, F-111, San Diego, CA 92121

To begin:

Step 1. Select Metal in column B
Step 2. Select from dropdown in column C
Step 3. If dropdown selection is “Smelter Not Listed” complete columns D & E
Step 4. Enter all available smelter information in columns H thru P
Mandatory fields are noted with an asterisk (*).
